Professional Summary

Computer Science undergraduate with experience in software quality assurance, manual testing, automation testing, full-stack development, cloud technologies, and business analysis. Skilled in Selenium, Playwright, Jira, MERN stack, Laravel, AWS, Docker, and Agile practices, with the ability to test, document, and develop reliable digital solutions.

Experience

Software Quality Assurance Engineer Intern

Nov 2025 – Apr 2026

Ideazone (Pvt) Ltd

- Designed and executed manual test cases to validate core product functionalities.
- Developed automation scripts using Selenium and Playwright to reduce repetitive testing effort and improve test coverage.
- Logged, tracked, and managed defects using Jira while collaborating with developers to ensure timely resolutions.
- Participated in regression, functional, and UI testing within an Agile development environment.

Education

BSc (Hons) Computer Science

2024 – Present

Asia Pacific Institute of Technology – Kandy

Skills

Testing: Manual Testing, Test Case Design, Regression Testing, Functional Testing, UI Testing, Selenium, Playwright, Jira

Development: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Node.js, Express.js, PHP, Laravel, MERN Stack

Database, Cloud and DevOps: SQL, MongoDB, AWS, Docker, Kubernetes, CloudFormation, Git, GitHub

Business Analysis and Tools: Requirement Gathering, User Stories, BRD, SRS, Process Modeling, Figma, Agile, Microsoft Excel, Word, PowerPoint

Soft Skills: Communication, Teamwork, Organization, Problem Solving, Critical Thinking

Projects

Lumiere Cosmetic E-commerce Platform – Developed a MERN stack cosmetic e-commerce platform with Stripe payment integration, responsive UI, product browsing, and user account management.

SyncBoard – Real-Time Collaborative App – Built a real-time collaborative workspace using Next.js and TypeScript with live document synchronization.

BookIt – Slot Booking System – Created a MERN stack booking system with real-time scheduling, role-based access, and automated notification features.

Vantage POS – Developed a retail management system for transactions, inventory tracking, and analytics-based reporting using the MERN stack.

AWS Architecture for DigiWorks – Designed a scalable AWS cloud infrastructure using EC2, RDS, and S3 with focus on security, availability, and cost optimization.

Vantage POS – Business Analysis – Prepared BRD and SRS documentation to align business requirements with technical system design.

Certifications

- Agile Foundations – LinkedIn, Sep 2025
- Agile Project Management with Jira Cloud – LinkedIn, Sep 2025
- Learning Git and GitHub – LinkedIn, Sep 2025
- MERN Essential Training – LinkedIn, Sep 2025
- Learning Kubernetes – LinkedIn, May 2025
- AWS Certified Cloud Practitioner Cert Prep – LinkedIn, Apr 2025
